DETAILED ACTION

This Office Action is in response to the amendment filed May 22, 2009 for the above identified patent application.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 14 is rejected under 35 U.S.C. 102(b) as being anticipated by either one of Gilman (USP 2,124,060) or Lehmann et al. (USP 6,227,709).

Gilman disclose a bearing shell having at least one marking (13) in an inner surface within a strip-shaped area of the bearing shell below a parting face of the bearing and an overlay applied to said inner surface of the bearing.

Lehmann et al. disclose a bearing shell having at least one marking (13,30) in an inner surface within a strip-shaped area of the bearing shell below a parting face of the bearing and an overlay applied to said inner surface of the bearing.

With respect to the method limitations of applying the overlay layer on the stamped marking has been given limited patentable weight because an apparatus claim must define over the prior art in terms of structure and not the

method steps in forming the bearing. Accordingly, the prior art to both Gilman and Lehmann et al. teach the structure of the claimed bearing.

.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
